Key insights

- West generated the highest regional sales at \$725,457.82 and also the highest regional profit at \$108,418.45.
- The Canon imageCLASS 2200 Advanced Copier is the top product by sales at \$61,599.82.
- South has the lowest regional sales at \$391,721.91; Central has a lower profit margin (7.92%) than the other regions.
- Monthly sales data spans January 2011 through December 2014, enabling month-on-month trend analysis.

Business recommendations

- Investigate the lower sales in South by reviewing product mix, discounting, customer coverage and sales activity.
- Use the leading product as a reference for availability and profitability monitoring, while checking whether high sales translate into sustainable profit.
- Monitor monthly sales and profit together in Power BI to identify periods of growth, decline and margin pressure.
- Use Date, Region and Category slicers to let management isolate performance drivers before taking action.
